## Knoll Interplay textiles

Vibrant. Graphic. Timeless. Designed under the creative direction of Dorothy Casonas, Interplay is a collection of upholstery fabrics that combines beauty, durability and color choice. For added performance, all three patterns can be combined with Nanotex finish, a durablock moisture barrier or both.

## Knoll KT Collection

The KT upholstery collection marries classic modern design with high performance and an affordable price!

## Trey by Sauder

At first glance the Sauder Trey looks like a basic task chair. However its sophistication and fun is revealed in 3 quick steps transforming it from a task chair to a floor rocker and table/stool, enhancing the alternative study positions of today's students.

One, two  
Trey!

## ERG Sienna

The Sienna stackable chair features a perforated methacrylate back with an upholstered seat.

Methacrylate plastic back available in 5 colors. Steel frames are available in 24 coat finishes or in polished chrome. Available in cafe, counter and barstool heights.

## IOA Lean Healthcare

On January 19th, Architecture + Design industry guests had the privilege of hearing Tara Rae Hill, international CEU representative, speak on "Leveraging Lean to Prosper Health Design." Those attending enjoyed the lecture along with some salacious Italian food and wines!

CIS offers a bit "Thank you" to our co-host for this event, Fabio Delmestri, President of IOA Healthcare Furniture.

Shown are some of the IOA pieces features at the event.

The Annina series can be used as a single patient chair or combined in a multiple seating row. You can also sit on the patented rolling footrest and be safely supported.

The Catesby collection features a variety of armcaps and replaceable "boots" that are available to provide a designer aesthetic with outstanding durability.

The LOTA sleeper features a sleeping area independent from the sitting surface. It also has a simple, effortless conversion with no mechanisms.

## CIS News
